YEARS PRODUCING

Tim Goldn makes music for the space between restless and still. The Norwich-based producer and songwriter has spent 15 years behind the desk - but the work bearing his own name is something different: warm, unhurried electronic music that lands in playlists and sticks around.

Cigarette Daydreams has passed 6 million streams. Boulevard of Broken Dreams and Daisies followed. Across the last year, 308,000 monthly listeners have made his catalogue part of their routine - late Sunday mornings, end-of-day drives, slow evenings in.

Alongside solo work, Tim produces as one half of progressive house duo OTTIMA, and continues engineering and production work out of his studio in Norwich, UK.
